## WHAT IS IT?

Work Train Southwark will give you training, qualifications, work placement and support to get a job. Choose from four pathways:

- 1 FAST TRAIN TO WORK: CUSTOMER SERVICE + RETAIL
- 2 FAST TRAIN TO WORK: HEALTH + SOCIAL CARE
- 3 FAST TRAIN TO WORK: CATERING + HOSPITALITY
- 4 FAST TRAIN TO WORK: ADMINISTRATION + IT

## HOW DOES IT WORK?

The programme is made up of three stages. You can enter the programme at the stage that is right for you.

## WHAT WILL I GET?

Depending on where you start, you can do one, two or all three stages:

# 1

### STAGE ONE: THE TRAINING STOP

On any Fast Train programme you will get qualifications in:

- Health & Safety at Work
- Basic Food Hygiene
- Basic First Aid
- Manual Handling

You will then complete an introductory course in the pathway of your choice. All our training is accessible. You will get all the support you need to be able to complete it successfully.

After stage one you can choose to move on to a work placement...

# 2

### STAGE TWO: THE WORK PLACEMENT STOP

You will get a work placement of your choice in the pathway you have chosen. Your placement will be with a supportive local employer and we will give you all the support you need to travel to your placement and complete it. A placement will help you to:

- Refresh your workplace skills
- Show employers that you have recent experience
- Feel more confident when applying for jobs

After stage two you can choose to move on to a job search...

# 3

### STAGE THREE: THE JOB SEARCH STOP

You will get all the support you need to think about jobs that are suitable for you and apply for them. You will be able to practise interview skills, get any clothing or equipment for work, and get support to learn all the essential parts of your new job. You will receive support in your job for as long as you need it.

You will also get a reference so you have the best chance of finding paid work on the programme.
